

DR. BRILL + DR. STEINMANN
INSTITUT FÜR HYGIENE UND MIKROBIOLOGIE

Hygiene Certification

for the production of continuous-flow water heater

Herewith the Dr. Brill + Partner GmbH Institute for Hygiene and Microbiology certifies that the

CLAGE GmbH

Pirolweg 1-5, DE-21337 Lüneburg,

fulfilled the hygienic requirements for the manufacturing of continuous-flow water heaters according to the Drinking Water Ordinance and in accordance with the latest state of the art. This is ensured by the achievement of the following points and measurements:

- The hygienic manufacturing requirements have been defined in a hygiene manual and are checked annually during an inspection of the production.
- Regular microbiological environmental investigations take place. These include drinking water tests, determination of airborne microbes by air sampler and swab samples.
- Water which is used for the testing of the continuous-flow water heater is disinfected with chlorine dioxide. The chlorine content is continuously controlled.
- Employees are trained annually on "Hygiene in production" and "Personnel hygiene".
- Quarterly one device of each product series is checked on its microbiological quality.

The hygiene certificate is renewed annually and has a validity from 05/12/2017 to 04/12/2018.

Hamburg, 05/12/2017

Dr. Florian Brill,
Managing Director
